QUESTION 1

A customer asks for a 50 TB disk-based backup solution with deduplication. They also need additional storage for test/dev purposes.

Which single HPE storage platform can you present to the customer that will meet both of their needs?

A. HPE Nimble SF series

B. HPE StoreEasy Gateway

C. HPE StoreOnce

D. HPE Nimble CS series

Correct Answer: A

HPE quick specs, they also offer the flash-optimized performance needed to run development/test, QA, and analytics workloads on your backup data--plus production workloads when needed.

QUESTION 2

DRAG DROP

Match the MSA architecture components with their descriptions.

Select and Place:

Component		Description
Tier		aggregation of disks of the same type using a specific RAID level
Virtual disk group		automatically assigned performance characteristic
Volume group		collection of virtual volumes allowing group management functions
Virtual pool		collection of virtual disk groups
Virtual volume		logical subdivision of a virtual pool that can be mapped to a host

Correct Answer:

Component	Description
Virtual disk group	aggregation of disks of the same type using a specific RAID level
Virtual volume	automatically assigned performance characteristic
Volume group	collection of virtual volumes allowing group management functions
Virtual pool	collection of virtual disk groups
Tier	logical subdivision of a virtual pool that can be mapped to a host

QUESTION 3

How does HPE StoreVirtual DSM for windows enhanced Microsoft windows native MPIO?

A. It automatically create an I/O path to each storage system in the cluster

B. It automatically adjusts transfer block

C. It automatically combines HPE thin provisioning and volume migration technology

D. It automatically adjusts the availability bandwidth between the switch and the array

Correct Answer: A

QUESTION 4

Which storage protocol is supported by virtual connect Flex-10?

A. FCoE

B. FC

C. ISCSI

D. FCIP

Correct Answer: C

QUESTION 5

Users are complaining about poor performance with their Data Warehouse application.

What is an effective solution to increase their performance at minimal cost?

A. HPE 3PAR Adaptive Flash Cache

B. HPE 3PAR Priority Optimization

C. HPE 3PAR Dynamic Optimization

D. HPE 3PAR Adaptive Optimization

Correct Answer: B
