QUESTION 1

One more solutions for each functional gap now have been identified where the solution requires one to vary from using standard IBM Maximo Asset Management V7.1 Which two factors are used to calculate the impact of each solution for the project success? (Choose two.)

- A. Length
- B. Urgency
- C. Priority
- D. Risk to business
- E. Difficulty to implement

Correct Answer: DE

QUESTION 2

The customer's legacy system has no functionality to create custom integrations. Which two options are available to migrate data from a legacy system to an IBM Maximo Asset Management V7.1 (MAM) environment? (choose two)

- A. Export data from the legacy system and import data as a database dump.
- B. Directly insert extracted data from the legacy system into the MAM database, by using SQL statements.
- C. Extract data from the legacy system into flat files and use the Maximo Migration Manager to migrate the data into MAM.
- D. Use the data migration option in the Maximo integration Adapter, after having extracted data from the legacy system into the comma-separated value (CSV) files.
- E. Use the data import option in the Integration Framework, after having extracted data from the legacy system into the CSV files.

Correct Answer: BE

QUESTION 3

The Start Center is the home page for anyone logging in. Which statement describes the Start Center?

- A. The Start Center is used to provide a means to display pictures, files, and Portlets. This allows the user to configure the Start Center as a personalized environment specific to themselves.
- B. The Start Center is user selectable from the user's application. This allows the user to change which Start Center they want to use each time they log in. It is this flexibility to change that makes the Start Center so configurable to meet the user's need.
- C. The start Center is configured to the specific role or job function of the person who has logged in. It can contain one or more Portlets, each of which is also configured to the specific role or job function of the person who has logged in. Only

one start center can be assigned per security group.

D. The start Center is configured to the specific role or job function of the person who has logged in. It can contain one or more Portlets, each of which is also configured to the specific role or job function of the person who has logged in. Multiple Star Centers can be assigned per security group.

Correct Answer: C

QUESTION 4
