Correct Answer: BC

QUESTION 5

DRAG DROP

Refer to the exhibit. Match the Fault Icons to the appropriate description.

Select and Place:

Icon		Description
(red X)		Problems exist with one or more components that might adversely affect system performance. These issues should be researched and fixed as soon as possible before they become major or critical issues.
(orange)		Potential problems exist with one or more components that might adversely affect system performance if they are allowed to continue. These issues should be researched and fixed as soon as possible before the problem grows worse.
(yellow)		Critical problems exist with one or more components. These issues should be researched and fixed immediately.
(green)		Serious problems exist with one or more components. These issues should be researched and fixed immediately.

Correct Answer:

Problems exist with one or more components that might adversely affect system performance. These issues should be researched and fixed as soon as possible before they become major or critical issues.

Potential problems exist with one or more components that might adversely affect system performance if they are allowed to continue. These issues should be researched and fixed as soon as possible before the problem grows worse.

Critical problems exist with one or more components. These issues should be researched and fixed immediately.

Serious problems exist with one or more components. These issues should be researched and fixed immediately.
