## QUESTION 2

Which OES service is not available on the NetWare platform?

- A. eGuide
- B. iFolder 3.x
- C. Identity Manager
- D. Apache Web Server

Correct Answer: B

## QUESTION 3

You have configured the global server policy on your iFolder server such that user data is encrypted as it is transferred between the iFolder client and the iFolder server. You are concerned that users might disable this option and do not

want it displayed in the iFolder client. Click the iFolder Management Console option you would use to do this.

Hot Area:

Item 18 of 66 Time Remaining: 1:10:47

**Point and Click**

Click the Point and Click button to begin.

You have configured the global server policy on your iFolder server such that user data is encrypted as it is transferred between the iFolder client and the iFolder server. You are concerned that users might disable this option and do not want it displayed in the iFolder client. Click the iFolder Management Console option you would use to do this.
