QUESTION 1

You are a system administrator and you are working with Support. Support asked you to enable kernel core dumps on the files. You are unsure if this has already been set. You run the command `chkconfig -list kdump`. Does the screen capture tell you if kernel dumps are enabled on this gateway?

```
[Expert@gw-8606f8:0]# chkconfig --list kdump
kdump          0:off  1:off  2:off  3:on   4:off  5:off  6:off
[Expert@gw-8606f8:0]#
```

- A. There is not enough information to determine if kernel core files will be generated.
- B. Yes kernel dump has been enabled and kernel files should be captured.
- C. Kdump has nothing to do with kernel core file generation.
- D. All values should be set to "on". A kernel core dump will not be created.

Correct Answer: B

QUESTION 2

Which of the following is true when IPv6 is enabled on a Security Gateway?

- A. An interface on the Gateway can either have IPv4 or IPv6 IP address or have both.
- B. As of version R77, IPv6 is only supported on Security Management Server.
- C. IPv4 will be completely disabled when IPv6 has been enabled.
- D. An interface on the Gateway can either have IPv4 or IPv6 IP address but cannot have both.

Correct Answer: A

QUESTION 3

Where do you configure the file `user.def` to change the encryption domain of the Security Gateway?

- A. Management Server
- B. Endpoint Client
- C. Security Gateway
- D. interoperable device

Correct Answer: A

QUESTION 4

How does the Check Point Security Administrator enable NAT Templates?

- A. Run commands with syntax `fw ctl set int cphwd_nat_templates_support 1` and `fw ctl set int cphwd_nat_templates_enabled 1`.
- B. Edit file `$FWDIR/boot/modules/fwkernel.conf` with the lines `"cphwd_nat_templates_support=1"` and `"cphwd_nat_templates_enabled=1"`.
- C. Set Firewall object > NAT > Advanced
- D. Set Global properties > NAT-Network address translation

Correct Answer: B

QUESTION 5

What are the kernel parameters that control "Magic MACs"?

- A. `fwha_magic_mac` and `fw_forward_magic_mac`
- B. `fwha_mac_magic` and `fw_mac_forward_magic`
- C. `cpha_mac_magic` and `cp_mac_forward_magic`
- D. `cpha_magic_mac` and `cpha_mac_forward_magic`

Correct Answer: B
