QUESTION 1

Which of the following CLISH commands would you use to set the admin user's shell to bash?

- A. set user admin shell bash
- B. set user admin shell /bin/bash
- C. set user admin shell = /bin/bash
- D. set user admin /bin/bash

Correct Answer: B

QUESTION 2

MegaCorps's disaster recovery plan is past due for an update to the backup and restore section to enjoy the benefits of the new distributed R77 installation. You must propose a plan that meets the following required and desired objectives:

Required: Security Policy repository must be backed up no less frequently than every 24 hours.

Desired: Back up R77 components enforcing the Security Policies at least once a week.

Desired: Back up R77 logs at least once a week.

You develop a disaster recovery plan proposing the following:

*

Use the utility cron to run the command upgrade_export each night on the Security Management Servers.

*

Configure the organization's routine backup software to back up files created by the command upgrade_export.

*

Configure GAIa back up utility to back up Security Gateways every Saturday night.

*

Use the utility cron to run the command upgrade_export each Saturday night on the log servers.

*

Configure an automatic, nightly logswitch.

*

Configure the organization's routine back up software to back up the switched logs every night. The corporate IT change review committee decides your plan:

A.

meets the required objective and only one desired objective.

B.

meets the required objective and both desired objectives.

C.

meets the required objective but does not meet either desired objective.

D.

does not meet the required objective.

Correct Answer: B
