### QUESTION 1

When previewing a Web page using a GUI HTML editor, you will:

- A. be limited to the default browser on your computer or device.
- B. be limited to the browsers installed on your computer or device.
- C. receive an error because GUI editors cannot preview pages in a browser.
- D. be limited to two browser choices that are installed on your computer or device.

Correct Answer: B

---

### QUESTION 2

Web developers typically include comments in their code for which reason?

- A. To insert server-side programs, such as JavaScript
- B. To communicate performance issues to site visitors
- C. To explain the purpose of code sections to other developers
- D. To declare which version of HTML each part of the code is using

Correct Answer: C

---

### QUESTION 3

Marion has been hired by a small business to determine why its Web site does not attract users. As Marion interviews different members of the company, she learns that when the site was first created, the external Web developer did not produce any documents specifying the basic requirements for the site. As a result, the site did not have a defined purpose and was not designed for the company's audience. Additionally, the site navigation did not make sense from a user's point of view. Marion considers this information, then she recommends that the company create which document?

- A. Wireframe
- B. Storyboard
- C. Marketing slideshow
- D. Non-disclosure agreement

Correct Answer: B

---

### QUESTION 4

Which of the following is a disadvantage of implementing a Bring Your Own Device (BYOD) policy in a company?

- A. Increased cost for licensing mobile applications
- B. Configuring the corporate e-mail server to work with mobile devices
- C. Inability to control access to company data if the device is stolen or lost
- D. Providing training for employees on how to use mobile devices with company applications

Correct Answer: C

---

#### QUESTION 5

A friend has called you about a possible computer problem because her computer is acting strangely. Sounds play unexpectedly, the monitor turns off suddenly, the hard-drive light flashes constantly, the computer sometimes reboots itself without warning. When you inspect your friend's system, you notice that several ports are open. Which of the following is most likely the cause of these symptoms?

- A. The computer has been infected with a polymorphic virus.
- B. The computer is experiencing a denial-of-service attack.
- C. The computer has been infected with an illicit server.
- D. The computer has been infected by a worm.

Correct Answer: C
