QUESTION 1

Scenario: An administrator is setting up his first farm to handle approximately 75 users and decides upon a three server farm. There are two concerns. The projected number of logons and log offs each hour may be high. In addition, the decision about whether to dedicate a single server to data collection has NOT been made.

What would be the best option to balance the number of users with using as many resources as possible to facilitate application publication?

- A. Set two servers as Most Preferred in the Election Preference tab.
- B. Set all of the servers\' election preferences to Default Preference in the Election Preference tab.
- C. Set one server as a dedicated data collector by setting Most Preferred in the Election Preference tab.
- D. Set one server as Most Preferred in the Election Preference tab and assign a load balancing policy to it so it reads as "Full" at 50% capacity.

Correct Answer: D

QUESTION 2

Scenario: A server farm has three policies using the Client IP address and User filters.

Policy A (priority 1) prevents client IP addresses in the 208.29.80.* range from accessing network and optical drives. All other settings are disabled.

Policy B (priority 2) prevents client IP addresses in the 208.29.85.* range from accessing network, client and removable drives. No other settings are configured.

Policy C (priority 3) allows all domain users to access network, client, optical and removable drives. All other settings are disabled.

Which drives will be available to a domain user accessing the server farm from a client using the

208.29.85.152 IP address?

- A. No drives
- B. Optical drives
- C. Client and removable drives
- D. Network, client and removable drives
- E. Network, client, optical and removable drives

Correct Answer: B

QUESTION 3

An administrator needs to install a XenApp 6.5 server to act as an additional dedicated data collector.

After installing XenApp on the new server, the next step is to configure it by enabling the _____. (Choose the correct option to complete the sentence.)

- A. Session-host mode only
- B. Controller and Session-host modes
- C. data collector and XML Broker host mode
- D. data collector and XTE Service host mode

Correct Answer: B

QUESTION 4

Which Citrix service should an administrator monitor when troubleshooting issues with Session Reliability?

- A. IMA
- B. XML
- C. XTE
- D. MFCom

Correct Answer: C

QUESTION 5

A XenApp administrator has been tasked with providing two factor authentication to a Web Interface server.

Which three types of two-factor authentication are supported by the Citrix Web Interface server by default? (Choose three.)

- A. Radius
- B. Authenex
- C. Safeword
- D. SecureStar
- E. RSA Secure ID

Correct Answer: ACE
