### QUESTION 1

John has been added as a non-employee user of the application. Which two statements are true about non-employee users of the application? (Choose two.)

- A. A user must have at least one position.
- B. A user must have at least one responsibility.
- C. A user must be assigned to at least one division.
- D. A user must be assigned to at least one organization.
- E. A user must be assigned to at least one access group.
- F. A user must be authenticated; for example, by having credentials such as a username and password.

Correct Answer: BF

---

### QUESTION 2

You have configured, verified, and published a task flow using Siebel Tools. You have registered the task flow in the Siebel client. However a link to the task does not display in the task pane. Which two items could cause this? (Choose two.)

- A. You did not activate the task.
- B. You did not clear the task cache.
- C. You did not add the task to a responsibility.
- D. You did not assign the task to a task group.
- E. You did not compile the views and applets in the task.

Correct Answer: CD

---

### QUESTION 3

You have been asked to create a multi-value group for contacts phone numbers. What should your first step in this configuration be?

- A. Create a new business component to store these phone numbers.
- B. Determine which column on the base table you can use to store these phone numbers.
- C. Determine which column on the one-to-many extension table you can use to store these phone numbers.
- D. Run the MVG Wizard in Siebel Tools, specify the business component, and have it automatically select the appropriate column.

E. Examine the existing application to determine whether there is already a multi-value group you could leverage to store phone numbers.

Correct Answer: E

---

#### QUESTION 4

When should you use explicit primaries through Enterprise Integration Manager?

- A. when there is only one child record in the dataset
- B. any time you have more than one child record in the dataset
- C. when the external system defines which child record should be the primary
- D. when the external system does not define which child record should be the primary

Correct Answer: C

---
