QUESTION 1

Where is the main data for organization-related business components stored?

A. S_PARTY table

B. S_ACCOUNT table

C. S_ORG_EXT table

D. S_ORG table

Correct Answer: C

QUESTION 2

You created new users and added them to existing and new user lists. In the enterprise profile file, StopOnError = TRUE. When you attempt to deploy (using Application Deployment Manager) you are getting errors. Which could be a possible cause?

A. You forgot to run a backup command.

B. You forgot to generate a mid-level release in Siebel Tools.

C. You sequenced User List before Users in the deployment.

D. You sequenced Users before User List in the deployment.

Correct Answer: C

QUESTION 3

CHENG has a Call Center agent position and has no one reporting to him. You have given him a responsibility that includes the "Manager\'s Account List View" (My Team\'s Account filter). What will be the outcome?

A. You will get an error because you cannot assign a manager view to someone who does not have a manager position.

B. The view will not display to him since he doesn\'t have a manager position.

C. He will see the view, but he will not see any records.

D. He will see the view, but he will only see records for which he is the primary on the Account Team.

Correct Answer: D

QUESTION 4

You have reached a critical point in your development, and you wish to back up the objects you have configured so far.

Which is NOT a valid method for backing up your object definitions?

A. Copy the local .srf file.

B. Copy the local .dbf file.

C. Check in projects into the server.

D. Use archive files to back up repository data.

Correct Answer: A

QUESTION 5

You are creating a new view which contains a list applet at the top and a form applet at the bottom. Both applets are based on the same business component.

For one set of users, all the data shown in both applets should be editable. For another set of users the form applet should not allow deletes or updates.

What should you do?

A. Create two views and set the No Update property to TRUE for one of them.

B. Create two views and set Read Only View to TRUE when you add one to the responsibilities.

C. Create two list applets and set the No Delete and No Update properties to TRUE for one of them.

D. Create two form applets and set the No Delete and No Update properties to TRUE for one of them.

E. Create two business components set the No Delete and No Update properties to TRUE for one of them.

Correct Answer: D
