QUESTION 1

There are no interdependent attributes. Which three statements are true about defining an item using a template? (Choose three.)

A. You can apply multiple templates to an item.

B. A template can be applied only at the master organization level.

C. A template can be applied at the master or child organization levels.

D. Modifying an item template would automatically update the items that were previously defined using that template.

E. Template application is exclusive. If you apply a second template to an item, the item would not retain any values of the prior template.

F. A template applied to a master item, which has already been assigned to a child organization, can still update the organization-controlled item.

G. Template application is additive. If you apply a second template to an item, the item would retain the values of all the attributes that were not enabled by the second template.

Correct Answer: ACG

QUESTION 2

Identify three true statements about the use of the Material Workbench. (Choose three.)

A. Authorized users can create move orders in the Material Workbench.
