QUESTION 1

ACME has built a full package and noticed there was a problem with the server package build process for one of the business function objects, B9840 included in CINSTALL library, as it reported "\\ERROR\\" in the R9622.pdf. Which log file on an Intel Enterprise Server should be examined to determine the cause of the business function compile problem?

- A. SvrPkgBuild.log
- B. JDE.log
- C. CINSTALL.log
- D. B9840.err
- E. CINSTALL.sts

Correct Answer: A

QUESTION 2

Which of the following settings must be configured AFTER creating the Business Services Server instance because it is not included as an option during the Business Services Server instance creation?

- A. Security Server
- B. Enterprise Server Name
- C. Enterprise Server Port
- D. System Datasource Name
- E. Database Type

Correct Answer: E

QUESTION 3

EnterpriseOne subsystem UBE jobs provide the system the ability to run without interaction and to avoid the fixed cost of repeated UBE startup overhead. Which of the options would make UBE a good candidate for the subsystem?

- A. Long running jobs
- B. Short duration jobs
- C. Process intensive jobs
- D. Light-weight process jobs
- E. High memory usage jobs

Correct Answer: B

QUESTION 4

ACME is utilizing multiple roles per user and having their users sign in on the web using *ALL as the user's role. Joe belongs to APADMIN (sequence 10) and APUSER (sequence 15) which have differences in the security records that enforce apps that can and cannot be run. What security records will be enforced for Joe on priority?

- A. APADMIN's security records only
- B. APUSER's security records only
- C. APUSER's security will have precedence over all other security records.
- D. APADMIN's security will have precedence over all other security records.
- E. ALL security records will be enforced despite any conflicts.

Correct Answer: D

QUESTION 5

EnterpriseOne Application Servers must have their specific components installed or configured prior to running a UBE that is directed to the Application Server. Which statement is FALSE?

- A. A printer must be configured and set up as a default printer for the environment on which the UBE is being run.
- B. The EnterpriseOne Application Services must be running, e.g. Call Object Kernels.
- C. The pathcode associated to the environment from which PORTTEST is run must be installed on the EnterpriseOne Application Server.
- D. Signon Security must be configured and Security Server running on the EnterpriseOne Application Server.
- E. The job queue to which the UBE is directed must be configured.

Correct Answer: A
