QUESTION 1

Which guarantees the application can be installed without push registration conflicts?

- A. The MIDlet specifies the push registration in the JAD, but will register dynamically if there is a conflict.
- B. The MIDlet specifies multiple push registration strings in the JAD.
- C. The MIDlet tries to register the connection dynamically after installation.
- D. It is NOT the responsibility of the MIDlet to resolve these conflicts. The installer does this automatically.

Correct Answer: C

QUESTION 2

Which is true regarding the use of Thread objects in a CLDC 1.1 compliant virtual machine?

- A. A Thread lives until it exits from the run() method it invoked at startup.
- B. There is no way for one Thread to force another Thread to stop.
- C. A Thread can be stopped only from the inside of a MIDlet class.
- D. To stop a Thread, a developer can use the stop() method.

Correct Answer: A

QUESTION 3

Click the Task button.

Place the connection strings on their corresponding connection interfaces.

Select and Place:

Place the connection strings on their corresponding connection interfaces.

Connection Interfaces	Connection Strings
DatagramConnection	comm:com0:baudrate=19200
SocketConnection	socket://1234
HttpConnection	https://12.101.320.1:8080
ServerSocketConnection	socket://12.101.320.1:79
CommConnection	http://java.sun.com
HttpsConnection	datagram://9001

Correct Answer:

Place the connection strings on their corresponding connection interfaces.

Connection Interfaces	Connection Strings
comm:com0:baudrate=19200	
socket://1234	
http://java.sun.com	
https://12.101.320.1:8080	
socket://12.101.320.1:79	
datagram://9001	

QUESTION 4

Which method is initially called when the MIDlet starts in response to a push notification?

- A. PushRegistry.notifyIncomingConnection()
- B. MIDlet.startApp()
- C. MIDlet.notifyApp()
- D. PushRegistry.listConnections()
- E. MIDlet.pushApp()
- F. MIDlet.resumeRequest()

Correct Answer: B

QUESTION 5

What is guaranteed by CLDC regarding time zones?

- A. UTC is always supported.
- B. At least one time zone must be supported.
- C. The local time zone is always supported.
- D. GMT and UTC must be supported.

Correct Answer: B
