QUESTION 2

Which VMware product would allow administrators to manage enterprise desktops with increased reliability, security, end-user hardware independence, and convenience?

A. NSX

B. vRealize Operations

C. Horizon

D. vCenter

Correct Answer: C

QUESTION 3

Match the Horizon Suite product components with their appropriate description.

Select and Place:

Horizon Suite Product Component	Description
App Volumes	Portfolio of integrated application and user management solutions for Horizon, Citrix XenApp and XenDesktop, and RDSH virtual environments
vRealize Operations for Horizon	Monitoring and reporting tool to manage Horizon and XenDesktop/XenApp environments
NSX for Horizon	Networking solution with policies that dynamically follow desktops
User Environment Manager	Enterprise-grade user management for a personalized end-user experience across devices and locations
vSAN for Horizon	Drive down the cost of storage by removing the need for external storage devices

Correct Answer:

Horizon Suite Product Component	Description
	App Volumes
	vRealize Operations for Horizon
	NSX for Horizon
	User Environment Manager
	vSAN for Horizon

QUESTION 5

A company wants to implement a software-defined network solution with minimal impact to the existing environment. What additional hardware, if any, is required when implementing VMware NSX?

A. A stateful inspection Firewall to take advantage of NSX\\'s built in Firewall protection

B. None. NSX is a completely non-disruptive solution.

C. Special VLAN configurations for accessing NSX.

D. At least two Layer 3 switches that must be converted to trunk mode.

Correct Answer: B

NSX is a completely non-disruptive solution which can be deployed on any IP network from any vendor ?both existing traditional networking models and next generation fabric architectures. The physical network infrastructure already in place is all that is required to deploy a software-defined data center with NSX.
