QUESTION 1

Which type of policy should a Citrix Administrator configure to ensure that only users who have data antivirus protection can connect to the environment?

- A. Traffic
- B. Pre-Authentication Scan
- C. Smart Control
- D. SmartAccess

Correct Answer: B

QUESTION 2

Which two policy types can a Citrix Administrator apply to a NetScaler Gateway virtual server so that only users accessing with corporate laptops that belong to the network domain are allowed? (Choose two.)

- A. Pre-Authentication
- B. Responder
- C. Authorization
- D. Traffic
- E. Session

Correct Answer: AB

QUESTION 3

Scenario: A company recently acquired three smaller companies; this adds more than 1500 employees to the company. The current NetScaler appliance does NOT support adding that many users. A Citrix Administrator needs to use a Multi-Tenancy solution, giving each newly acquired company its own NetScaler for VPN access, load balancing, and at least 20 GBPS of throughput.

How can the administrator meet the needs of this environment?

- A. Install XenServer and configure a NetScaler VPX 3000 for each newly acquired company.
- B. Purchase a NetScaler MPX appliance for each newly acquired company.
- C. Purchase a NetScaler CPX for each newly acquired company.
- D. Purchase a NetScaler SDX appliance and configure a NetScaler Instance for each newly acquired company.

Correct Answer: D

QUESTION 4

Scenario: A user is attempting to access a web server, which is load-balanced by the NetScaler using HTTPS. The user received the following message:

SSL/TLS error: You have not chosen to trust "Certificate Authority" the issuer of the server's security certificate.

What can a Citrix Administrator do to prevent users from viewing this message?

- A. Ensure that the intermediate Certificate is linked to the Server Certificate.
- B. Ensure that the user has the Server Certificate installed.
- C. Ensure that the intermediate Certificate is linked to the Root Certificate.
- D. Ensure that the user has the Certificate's Public key.

Correct Answer: A
