- C. Istart nstrace1 command at the command-line interface
- D. Instcpdump.shl command at the command-line interface

Correct Answer: BC

QUESTION 2

Scenario: NetScaler Gateway is implemented to provide Web Resources, including Outlook Web Access and an SAP portal, to users. Marketing and Sales department employees normally work from outside the office location and should be able to access Web Resources from different types of devices that are NOT maintained by the company. Which user access connection method should an administrator configure to meet the needs of this scenario?

- A. Citrix Receiver
- B. PN Agent plug-in
- C. Clientless access
- D. Access Gateway plug-in

Correct Answer: C

QUESTION 3

Scenario: For auditing requirements, NetScaler administrators are required to use their Active Directory accounts to log on to NetScaler. All NetScaler administrators belong to the NSAdmins Active Directory group. Which configuration must an administrator create in NetScaler to meet the requirements of the scenario?

- A. User accounts
- B. NSAdmins group
- C. Authorization policy
- D. Service Groups policy

Correct Answer: B

QUESTION 4

Scenario: There are two physical servers listening on port 8080. A Citrix Administrator added a third physical server to listen on port 80. The administrator is adding the third server to the existing load balancing configuration.

Which object does the administrator need to modify to allow traffic on port 80?

- A. Server
- B. Service
- C. virtual server
- D. Service group

Correct Answer: B

QUESTION 5

A penetration test has been performed against the NetScaler Gateway virtual IPs (vIPs) resulting in the SSL RC4-based ciphers being flagged.

What should the administrator do to address the vulnerability?

- A. Remove all the SSL ciphers from the virtual server.
- B. Assign Cipher Group '\\ALL\\' to the NetScaler virtual server.
- C. Assign Cipher Group '\\HIGH\\' to the NetScaler virtual server.
- D. Assign Cipher Group '\\DEFAULT\\' to the NetScaler virtual server.

Correct Answer: C
