QUESTION 1

Which three types of actions that relate to Oracle Database are requested by self-service portal users in Enterprise Manager Cloud Control 12c?

- A. Viewing chargeback information for their own database
- B. Viewing a summary of their current resource usage against the total amount of resource available to all self-service portal users
- C. Requesting a new database from the catalog of database-provisioning procedures that they are privileged to see
- D. Viewing a summary of their current resource usage against the limits that have been for them
- E. Viewing chargeback information for all database that are provisioned by self-service
- F. Deleting any database originally provisioned from the catalog of database-provisioning procedures that they are privileged to see

Correct Answer: ACD

QUESTION 2

How can database homes be pooled together into Database as a Service (DBaaS) pools by using the Enterprise Manager Cloud Control 12c self-service provisioning portal?

- A. They may be pooled together by major and maintenance release only if they are on the same operating system platform.
- B. They may be pooled together by major, maintenance, Fusion Middleware, and component- specific release if they are on different operating system platforms.
- C. Single-instance database homes of the same major, maintenance, Fusion Middleware, and component-specific release may be pooled together if they are on the same operating system platform.
- D. RAC database homes of the same major, maintenance, and component-specific release may be pooled together if they are on the same operating system platform.

Correct Answer: C

QUESTION 3

What are three essential characteristics of Cloud computing?

- A. Local area network access
- B. Resourcepooling
- C. Resource usage monitoring
- D. On-demand self-service

- E. Stable configurations
- F. Access from anywhere at any time

Correct Answer: BCD
