QUESTION 5

In a Project Draft Invoice preview, quantity (hours) and unit price (bill rate) are shown as fields on the invoice. Quantity and unit price are then used to calculate the line total, then the total price of the invoice. After the invoice is transferred or created in Receivables, the invoice detail has a quantity of 1, and a unit price equal to the line total. The detailed Unit Price/Quantity does not come through on the Receivables invoice.

Which statement is correct about details in the Receivables invoice?

A. The project sends the invoice header, invoice line description, and the invoice distributions to Receivables.

B. The project sends only the invoice header to Receivables, not the invoice line description and distributions.

C. The project sends the invoice line description and the invoice distributions to Receivables. But not the invoice header.

D. The project sends only the invoice header and invoice line description to Receivables, not the invoice distributions.
