QUESTION 1

During the FIFO pegging process, what is the correct order in which the supplies are sorted?

- A. Peg demands with reservations first and then peg demands that do not have reservations
- B. Pegging process sorts demands by due dates followed by reservation status
- C. Peg unreserved demands first and then demands with reservations
- D. Pegging process does not respect reservation, and demands are sorted based on demand and supply types
- E. Pegging process does not respect reservation, and demands are sorted based on due dates

Correct Answer: A

QUESTION 2

Your client wants their supply plans to have a customized group of exceptions. What two steps must you complete in order to make sure only these exceptions are included when running all of your client's supply plans? (Choose two.)

- A. Manage Plans > Select each supply plan > Edit each supply plan > Manually add each exception specified by client
- B. Configure Exceptions > Expand Supply Planning Exceptions > Highlight lines with exceptions specified by client > Click 'Add to Exception Set'
- C. Configure Exception Sets > Create exception set > Add exceptions specified by client
- D. Select 'Add to Supply Plan' button > Select which supply plans you want to have this group of exceptions
- E. Manage Plans > Select each supply plan > Edit each supply plan > Add your exception set to Plan Options for each supply plan

Correct Answer: BD

QUESTION 3

You have created several infotiles based on the client requirements. You now want to group them together for display. How do you accomplish this?

- A. First build them into an info set in Manage Infosets. Then open the info set on the plan by going to Open (choose area) > Choose info set.
- B. No need to group them. Open them directly on the plan going to Open (choose area) > Choose Infotile.
- C. First build them into a tile set in Manage Table, Graphs, and Analysis Sets. Then open the tile set on the plan by going to Open (choose area) > Choose tile set.
- D. First build them into a planning group in Manage Planning Groups. Then open the planning group on the plan by

going to Open (choose area) > Choose planning group.

E. First build them into a planning measure in Manage Planning Measures. Then open the planning measure on the plan by going to Open (choose area) > Choose planning measure.

Correct Answer: C

Reference: <https://docs.oracle.com/en/cloud/saas/supply-chain-management/18b/fausp/using-supply-planning.pdf> (p.26)

QUESTION 4

A supply plan has just been run that contains a configured item. You notice that the sourcing rules of the base model were used instead of sourcing rules for the configured item. Why did this happen?

- A. No sourcing rules have been defined for the configured item.
- B. The sourcing rules of the base model overrode the sourcing rules of the configured item.
- C. It is not possible to create sourcing rules for the configured item; all configured items always use the same sourcing rules as the base model.
- D. The sourcing rules of the base model had a priority of 1, while the sourcing rules of the configured item had a priority of 2.
- E. No planning percentages were defined at the operation level within the work definition.

Correct Answer: A

QUESTION 5

Your clients want to simulate how canceling demand may impact a plan. Which two steps must be done to simulate this change? (Choose two.)

- A. Run plan with '\\Do not refresh with current data\\'
- B. Manage Plans > Edit Plan Options > Add simulation set
- C. Open plan > View Supplies and Demands > Firm the demand and set firm quantity to 0 > Save changes
- D. Open plan > View Supplies and Demands > Remove the sales order from the plan and firm demand > Save changes
- E. Run plan with '\\Refresh with current data\\'

Correct Answer: BC
