QUESTION 1

As an Integration developer, you have been tasked with integrating Oracle Content and Experience Cloud with a process application. Because this is a document-centric process that will involve collaboration with process participants, it has been determined that the document and conversation functionality should be used. Which task is NOT required?

A. You must manually enable the document and conversation features for your process application.

B. You will need to have the administrator configure the connection between Oracle Integration Cloud (Processes) and Oracle Content and Experience Cloud because developers do not have those permissions.

C. You will need to create a new process application because the conversation functionality cannot be enabled for pre-existing applications.

D. You will need to assign conversation viewers to either an Oracle Content and Experience user role or Oracle Documents Cloud Service user role.
