QUESTION 2

You have defined two expenditure types, but they are not available for selection when you enter an expenditure batch. Identify the reason for this problem. (Choose the best answer.)

A. The two expenditure types are not assigned to the reference data set that is assigned to the project unit in which the transaction is performed.

B. The two expenditure types are not assigned to the reference data set that is assigned to the project-owning organization in which the transaction is performed.

C. The two expenditure types are not assigned to the reference data set that is assigned to the project expenditure organization in which the transaction is performed.

D. The two expenditure types are not assigned to the reference data set that is assigned to the business unit in which the transaction is performed.

Correct Answer: A

Chapter 3 - Define Project Organizations

Topic - Set Assignments and Project Data ?How They Work Together (Page 29) Business Unit as Set Determinant

Business units enable you to control and report on financial transactions, usually for specific geographical entities within the enterprise. For project management purposes, assign the Project Accounting business function to the business unit.

Business unit is a set determinant for the project-related reference data objects described in the following table.

Ref Data Object Entities

Project Accounting Project Types

Definition

Project Rates Project rate

schedules

Project Unit as Set Determinant

Use project units to enforce consistent project management practices across your enterprise. Project unit is a set determinant for the reference data objects described in the following table.

Ref Data Object Entities

Project Definition Class codes, financial plan types, project plan types and project roles

Project Transaction Expenditure types and work types

Types

You can only select class codes, plan types, roles, expenditure types and work types that are assigned to the same set as the project unit. To enable expenditure types and work types for use on projects owned by a project unit, assign the set

associated with the Project Transaction Types reference data object to those entities

---

QUESTION 3

Your client has implemented Oracle Cloud Applications with their United States business unit and United Kingdom business unit. After six months, they acquired another company in China and added a China business unit. A project accountant in your organization is authorized to access transactions for the US, UK, and China business units. The project accountant can see the transactions for the US and UK business units but not for the China business unit. Why is he not able to see the transactions for the China business unit? (Choose the best answer.)

A. The application role relevant to the China business unit is not assigned to the project accountant.

B. The project accountant is not assigned to the external role that grants access to the China business unit.

C. The US and UK business units are linked to different ledgers than the China business unit.

D. The China business unit is associated with a different legal entity than the US and UK business units.

Correct Answer: B

QUESTION 4

Which two statements are true about a project in "Draft" status? (Choose two.)

A. Project managers can view draft projects on the Project Manager Dashboard and use the projects for requirements planning.

B. Project managers can neither view draft projects on the Project Manager Dashboard nor use the projects for requirements planning.

C. Team members can see the tasks from draft projects on the Team Member Dashboard or in the My Work area.

D. Team members cannot see the tasks from draft projects on the Team Member Dashboard or in the My Work area.

Correct Answer: AD

Reference https://docs.oracle.com/cloud/latest/projectcs_gs/OAPEM/OAPEM1122096.htm The following table lists the project statuses and what you can do with projects in that status.

Project What you can do?

Status

Draft Project managers can view draft projects in the Project Manager Dashboard and use the projects for requirements planning.

Team members can\\'t see the tasks from draft projects on the Team Member Dashboard or in the My Work area.

Active Project managers can view active projects in the Project Manager Dashboard and use the projects for requirements planning, project execution, and reporting.

Team members can view task assignments on active projects on the Team Member Dashboard and My Work area.

Pending Project managers can view pending projects in the Project Manager Dashboard and use the projects for Close project tracking, and reporting.

Team members can view task assignments on pending projects on the Team Member Dashboard and My Work area.

Submitted Project managers can view submitted projects in the Project Manager Dashboard and use the projects for project tracking, and reporting.

Team members can view task assignments on submitted projects on the Team Member Dashboard and My Work area

Closed Project managers can\\'t view closed projects in the Project Manager Dashboard or use the projects for requirements planning, project execution, and reporting.

Team members can\\'t view tasks of closed projects on the Team Member Dashboard or in the My Work area.

QUESTION 5

Your client organization has recently undergone a restructuring exercise that has resulted in the creation of new jobs. The Resource Breakdown Structure (RBS) was previously created with existing jobs, and now the new jobs have been added to the existing Resource Breakdown Structure. Identify the correct statement about the RBS and new resources. (Choose the best answer.)

A. If the "Allow resource changes at project level" option is set to No, the new resources and resource formats that are added to a Planning Resource Breakdown Structure for one project are not available for other projects.

B. If the "Allow resource changes at project level" option is set to No for the RBS, then the resources added to the Planning Resource Breakdown Structure are automatically available for use on the projects.

C. If the "Allow resource changes at project level" option is set to Yes for the RBS, the new resources are available automatically at project level.

D. If the "Allow resource changes at project level" option is enabled for the RBS, the new resources added at project

level are automatically reflected in the RBS.

Correct Answer: B

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio- management/19a/fapfm/implementing-project-financial-management- applications.html#FAPFM969761

Topic - Entering Planning Resource Breakdown Structure Details Click Navigator > Setup and Maintenance, and search for the Manage Planning and Billing Resource Breakdown Structures task.

Click the Manage Planning and Billing Resource Breakdown Structures link. Use the Manage Planning and Billing Resource Breakdown Structures page to create new planning resource breakdown structures and to review existing planning

and billing resource breakdown structures.

Click the Create icon in the Planning Resource Breakdown Structures section. Use the Create Planning Resource Breakdown Structure: Basic Information page to provide basic resource breakdown structure information including the name,

active dates, and project unit. Enter a planning resource breakdown structure name and select a date from which the resource breakdown structure is available for use.

Optionally, provide a description and a date to which the planning resource breakdown structure is available for use.

Select a project unit. Only projects created for the selected project unit can use this planning resource breakdown structure.

If you want to allow project managers to add planning resources at the project level, then select the Allow resource changes at project level check box.

Tip: Changes at the project level don\\'t move back to the parent planning resource breakdown structure. Deselect this option to ensure all project using the planning resource breakdown structure use the same resources.

Optionally, select a Job Set as a source of jobs for creating planning resources on your planning resource breakdown structure.

Click Save.
