### QUESTION 1

As the planner, you have made some changes to a few of the specifications for items in your simulation sets. You would like to run one of your existing Demand and Supply Plans that contains this simulation set to see how these changes impact the plan.

Which option shows the steps you must complete in order to ensure that when you run your existing Demand and Supply plan, it contains your changes to the simulation set?

- A. When the Demand and Supply Plan is run, verify that '\Recalculate Safety Stock\' is selected in the Details section.
- B. You are only able to update one item attribute at a time. Since you have changed multiple attributes, you will be unable to update and run this plan.
- C. When the Demand and Supply Plan is run, verify that '\Refresh with current data\' is selected in the Details section.
- D. No additional steps are necessary. Any plans that contain your simulation set will automatically be updated with the changes.
