QUESTION 1

Your customer is setting up serial control. The requirement is that if item A has serial 123, then they do not want item B to also have serial 123 within the same inventory organization. Which serial control setting must be used to meet this requirement?

- A. Unique within items
- B. Unique across Enterprise
- C. Unique across organizations
- D. Unique within organization
- E. Unique within Item and organization

Correct Answer: D

QUESTION 2

Your client has just set up their chart of accounts. They are now designing the organization hierarchy in the system.

Which three structures should the customer use to do this?

- A. Divisions, Business Units, and Departments
- B. Cost type, Default Cost Structure, and Item Organization
- C. Warehouse, Subinventory, and Locators
- D. Cost Centers, Organizations, and Locations

Correct Answer: A

QUESTION 3

Your client is about to define their primary ledger. Which set of three primary attributes do they need to know in order to complete this?

- A. Currency, Description, and Accounting Method
- B. Chart of Accounts, Description, and Accounting Method
- C. Chart of Accounts, Accounting Calendar, and Currency
- D. Chart of Accounts, Ledger Balance, and Accounting Method

Correct Answer: C

QUESTION 4

Your customer wants you to restrict the values of Receivables Transaction Type for their three business units. You created three reference data sets for each business unit. However, the user is still able to see the values in the Transaction Type list of values which are not defined in the business unit data set. What is the reason for this behavior?

- A. Reference Data Sets cannot be used uniquely across business units. They can only be used at the Legal Entity level.
- B. The user is seeing the values defined in the common set. The values should be removed from the common set.
- C. The user has multiple Business Unit Roles and, therefore, is able to see additional values.
- D. Receivables Transaction Types are common across business units.

Correct Answer: B

QUESTION 5

You are a shop floor manager and you have received an order which is a back-to-back order in nature.

You need to reserve 100 pieces of an item in order to finish your order. However there are only 50 pieces available for reservation.

If you process this request, how many pieces are provided as the fulfillment for the order?

- A. 50 pieces, because full 100 quantities are not available.
- B. 0 pieces, because partial fulfillment of reservation not supported.
- C. 25 pieces, only half of the quantities can be reserved.
- D. 100 pieces, 50 from on-hand and 50 in the form of a purchase order.

Correct Answer: B
