QUESTION 1

Your client originally used Quick Setup to configure Cost Accounting. However, after reviewing their costing policies, they realize that they want to cost some of their lots differently than others. What must they do to accomplish this?

- A. Quick Setup generates valuation units so they just have to access those valuation units and make their changes.
- B. They cannot change their current configuration; data generated by Quick Setup cannot be changed.
- C. They must create their valuation units manually.
- D. Quick Setup generates one valuation unit so they can access this to make changes and manually create new valuation units.

Correct Answer: D

QUESTION 2

How is the standard cost of a manufactured configured item calculated?

- A. It is based on the material and resource requirements of a released work order.
- B. The standard cost of a model item is calculated.
- C. The standard cost is calculated for every possible combination of options under a model.
- D. It is based on the actual cost of the work order after it is completed.

Correct Answer: B
