QUESTION 1

Your company wants to revise an existing sales order in Order Management Cloud to compensate the downstream legacy fulfillment system that does not allow any update to the already interfaced fulfillment lines.

What type of compensation pattern rule would you need to define for the orchestration process fulfillment step?

A. Define one rule of type CREATE.

B. Define one rule of type UPDATE.

C. Define two rules: one of type CANCEL and another of type CREATE.

D. Define one rule of type CANCEL_CREATE.

Correct Answer: C

A rule that you can set on an orchestration process step that specifies the adjustments to make when an order changes. Undo, Redo, Update, Cancel, and None are each an example of a compensation pattern. For example, assume the compensation pattern for a Create Shipment step is Redo, and that this step calls the Cancel service and the Create service. If Order Management receives a change order that includes a new warehouse for this step, then it runs the Cancel service and the Create service again.

C. Data for the selected entities is deleted from the planning data repository.

D. It collects only changed data to the planning data repository.

E. It collects data only incrementally to the planning data repository.

Correct Answer: BE

QUESTION 3

In the Cloud Order Management system, identify the function performed by the External Interface Layer.

A. It manages the communication between Order Management and external or internal fulfillment systems.

B. It sends information to downstream fulfillment systems, and interprets responses and updates from those systems.

C. It receives information from upstream order capture systems, sends information to downstream fulfillment systems, and interprets responses and updates from those systems.

D. It imports orders and processes them to fulfillment lines before assigning them to fulfillment systems.

Correct Answer: B

QUESTION 4

You are using collaboration messaging to send an advanced shipment notice to a trading partner. You see an error with the status "B2B Error." What does this status indicate?

A. It indicates that collaboration messaging is not supported in Order Management.

B. It indicates that the message has not been delivered because of a validation error in Collaboration Messaging Framework.

C. It indicates that the SOA suite could not deliver the message because of a configuration or processing error.

D. It indicates that the message has not been processed because an administrator has put it on hold.

E. It indicates that the message has not been delivered because of a configuration or processing error in Collaboration Messaging Framework.

Correct Answer: E

QUESTION 5
