### QUESTION 1

What two form validation rules options are supported in Planning? (Choose two.)

- A. When enabled, execute validations associated with the form for all users regardless of access rights when validating the Approval unit.
- B. When enabled, all validations are run as the administrator and applied to the form members.
- C. When enabled, the user variable for the approval dimension on the form will be replaced by the approval unit member before the validations are run.
- D. When enabled, the system figures out which page combinations have potential data blocks and runs the validations regardless of those page combinations.
- E. When enabled, the form will be validated multiple times by replacing the user variable from the approval unit dimension with every possible value.

Correct Answer: CE

### QUESTION 3

What is the difference between Financials and Strategic Modeling? (Choose the best answer.)

- A. There is not a technical difference, both do essentially the same thing
- B. Ownership Contributions and Consolidations are out of the box in Financials
- C. Strategic Modeling is broader in focus and used for long range planning
- D. Financials is more summarized than Strategic Modeling

Correct Answer: C

Your strategic planning and your business planning should be complementary, but effective strategy development requires you to shift your focus from the day-to-day concerns of your business and to consider your broader and longer-term options.
