QUESTION 1

In Financials, you want to see asset related expenses such as depreciation, amortization, and insurance.

Which describes the steps you can take to set this up? (Choose the best answer.)

- A. Set up the Equipment Expense Reporting Capex data map to map asset related expenses to Financials.
- B. On the Configure page for Capital, select the option to map Capital accounts to financial accounts. Then for each Capital account, select a financial account to map to.
- C. On the Configure page for Financials, when enabling features, include a custom dimension to store asset related information.
- D. On the Configure page for Financials, select Asset Accounts to set up the accounts from Capital that map to Financials.

Correct Answer: B

QUESTION 2

In what three ways can Service Administrators implement EPM Automate in Planning? (Choose three.)

- A. To copy data from an aggregate storage database to a block storage database
- B. To copy data from a block storage database to an aggregate storage database
- C. To execute scripts that complete tasks using a scheduler
- D. To import and export metadata, data, artifacts and snapshots
- E. To promote financial plans to the next level in the approval hierarchy

Correct Answer: BCD

Copy data from one database to another; typically, from a block storage database to an aggregate storage database. You can create scripts that are capable of completing a wide array of tasks and automate their execution using a scheduler. Import and export metadata, data, artifact and application snapshots, templates, and Data Management mappings.

QUESTION 3

Whenever you change dimensionality in a target cube, what action on the Data Maps page must you take to ensure that you see metadata changes immediately? (Choose the best answer.)

- A. Select the corresponding data map, and Refresh the Database.
- B. Select the corresponding data map, and execute the Synchronize Defaults Business.
- C. Select the corresponding data map, and Synchronize to refresh the data,
- D. Select the corresponding data map, and execute the Synchronize Components Business Rule.

Correct Answer: A

QUESTION 4

Which two are benefits of enabling Use Database Suppression in Smart Push? (Choose two.)

- A. It automatically merges comments, attachments, and supporting detail when mapping a cube for reporting.
- B. It helps eliminate the impact on query thresholds and improving wait times.
- C. It allows you to continue using the application while Smart Push runs in the background.
- D. It enables you to apply row suppression at the database level instead of the application level.

Correct Answer: BD
