D. any version with the Portal 11.1.1.8 extension

Correct Answer: C

QUESTION 4

After deploying WebCenter Portal for an enterprise, you can optionally register a connection to Portlet

producers.

Which three mechanisms allow you to accomplish this?

A. Portlet producers can be registered with WebCenter Portal using the WLST (WebLogic Scripting Tool) command.

B. Portlet producers can be registered by using Fusion Middleware Control (Enterprise Manager).

C. Portlet producers can be registered via SQL.

D. Portlet producers can be registered using Portlet Producer Registration Task Flow from within WebCenter Portal.

Correct Answer: ABD

QUESTION 5

What is the role of ADF Business Components in the development of a custom taskflow?

A. It handles communication with data sources, such as a database and data persistence. It\\'s also responsible to handle data validation.

B. In an MVC model, it represents the Controller layer, handling navigation between pages or page fragments, and session information.

C. It\\'s a set of visual components aimed for business users. Graphs, Charts, and Reports are examples of Business Components.

D. It\\'s a set of fa?ade classes that abstract the complexity of handling visual components in the UI layer. Users can add Business Components to the Portal page by using the drag-and-drop functionality.

Correct Answer: D
