QUESTION 1

You have an asset (Article) with one dependent asset (ArticleImage). These two assets are published and available on delivery. The Article asset is edited and approved for the second time. In this case, which two statements are true?

- A. If dependency type is "Exists," you must have the ArticleImage approved.
- B. If dependency type is "Exists," you must have the Article asset approved.
- C. If dependency type is "Exact," you must have only the ArticleImage asset approved.
- D. If dependency type is "Exact," you must have only the Article asset approved.
- E. If dependency type is "Exact," you must have both the Article and ArticleImage assets approved.

Correct Answer: BD

QUESTION 2

Which two administrative capabilities are included on the Admin tab in the Admin interface?

- A. User Generated Content
- B. User Profile
- C. Publishing
- D. Segment Creation
- E. In-Context editing

Correct Answer: BE

QUESTION 3

To reproduce an environment, which two backups are required at a minimum?

- A. cold backup of the database schema
- B. backup of the WebCenter Sites shared file system
- C. backup of the WebCenter Sites web applications
- D. backup of the Webserver configuration files

Correct Answer: AC

QUESTION 4

Which statement is true about approval dependencies?

- A. Asset dependencies are stored in the AssetRelationTree table.
- B. Asset dependencies and composition dependencies are calculated independently.
- C. Collection and recommendation assets have a dependent query asset.
- D. Basic assets have only one type asset dependency relationship.

Correct Answer: B

QUESTION 5

Your client wants its website to support multiple channel delivery. The client has new requirements:

1. The web pages should rearrange themselves for smaller devices and/or browser size and/or orientation.
2. Editors do not need to do anything more or learn anything new than what they do or know currently, with regard to their current 1024-pixel-wide website.
3. The client wants to keep the amount of code testing to a minimum.

Which solution best meets these requirements?

- A. Create multiple instances of Article assets, one each for the type of device that you want to support, and assign them the appropriate template.
- B. Create multiple instances of responsive templates, one each for the type of device that you want to support, by using namespaces to distinguish between them at request time.
- C. Install multiple WebCenter Sites delivery environments, one each for the type of devices that you want to support.
- D. Refactor your existing templates by using the open source CSS and JavaScript libraries to enable responsive behaviors.

Correct Answer: A
