QUESTION 2

A customer has a requirement to contribute content to the management environment (Server M) and make this content available to the live environment (Server P). The customer has decided to use the publishing functionality to accomplish this requirement.

Which statement best reflects the configuration that is required?

- A. Create a publish destination with the RealTime delivery type, configure a batch user on Server M, and configure a RealTime user on the target Server P.
- B. Create a delivery type of Dynamic Publish, assign this delivery type to a publish destination on Server M, and create a batch user for both Server M and Server P.
- C. Create a publish destination with the RealTime delivery type, create a batch user on Server M, and enter the RealTime username and password in the publish destination entry form. The RealTime user must have appropriate privileges for both the source Server M and the target Server P.
- D. Create a publish destination with the RealTime delivery type, create a batch user with appropriate privileges for Server M, and create a RealTime user with appropriate privileges for the target Server P.

Correct Answer: C

QUESTION 3

Your client wants its website to support multiple channel delivery. The client has new requirements:

1. The web pages should rearrange themselves for smaller devices and/or browser size and/or orientation.

2. Editors do not need to do anything more or learn anything new than what they do or know currently, with regard to their current 1024-pixel-wide website.

3. The client wants to keep the amount of code testing to a minimum.

Which solution best meets these requirements?

A. Create multiple instances of Article assets, one each for the type of device that you want to support, and assign them the appropriate template.

B. Create multiple instances of responsive templates, one each for the type of device that you want to support, by using namespaces to distinguish between them at request time.

C. Install multiple WebCenter Sites delivery environments, one each for the type of devices that you want to support.

D. Refactor your existing templates by using the open source CSS and JavaScript libraries to enable responsive behaviors.

Correct Answer: A

QUESTION 4

What two are characteristics of basic assets?

A. can be rated for use with recommendations and promotions

B. are simple data structures with a single storage table

C. support a fixed, predictable design with a moderate number of attributes

D. do not work with static publishing

E. do not allow for subtypes

F. include main tag families such as ASSETSET, SEARCHSTATE, and RENDER

Correct Answer: BF

QUESTION 5

You have an asset (Article) with one dependent asset (ArticleImage). These two assets are published and available on delivery. The Article asset is edited and approved for the second time. In this case, which two statements are true?

A. If dependency type is "Exists," you must have the ArticleImage approved.

B. If dependency type is "Exists," you must have the Article asset approved.

C. If dependency type is "Exact," you must have only the ArticleImage asset approved.

D. If dependency type is "Exact," you must have only the Article asset approved.

E. If dependency type is "Exact," you must have both the Article and ArticleImage assets approved.

Correct Answer: BD
