QUESTION 1

Your organization has decided to invest in SOA as a key component of your overall enterprise technology strategy. Identify three core benefits your organization can expect,

A. More rapid and cost-effective response to changing business needs

B. More effective reuse of macro-level business functionality

C. Automatic governance adherence

D. Immediate and significant ROI

E. Simplification of integration between existing IT assets

F. Total elimination for the need forEAI

Correct Answer: ABC

QUESTION 2

Which two statements are true with respect to SOA Services?

A. A Service must not have any dependency on the identity of the consumer that invokes it.

B. Services should be aware of the protocol used to invoke them, where they physically exist, and on what type of hardware or operating system they run.

C. In order for Services to be versatile and support reuse, there must be no separation of concerns in terms of what they do and how they are used.

D. Services must not be tied to any particular physical location.

Correct Answer: AD

QUESTION 3

Which statements describe how the Mediation Layer relates to the other architecture layers In the service-oriented integration architecture?

A. The Mediation Layer facilitates communication between layers in the architecture and between the architecture and the systems that connect to the architecture.

B. The Mediation Layer provides the bulk data movement capability for the architecture.

C. The Mediation Layer enables connectivity to back-end systems by providing protocol mediation.

D. Every call between layers in the architecture must pass through the Mediation Layer.

E. The Mediation Layer provides the data translations needed to convert all Data Services data formats to the normalized data format.

Correct Answer: C

QUESTION 4

During Service identification and discovery, which three reasons you would use a business function model?

A. To identify functional overlap and linkages in the SOA project selection process

B. To summarize what an enterprise does and the relationship between those functions

C. Identify the high-level business processes in the organization

D. Define the organizational structure for the business

E. Provide a structure for a federated enterprise service bus deployment

Correct Answer: BDE

QUESTION 5

While defining your SOA governance model, you decide to define your organization structures to define/ monitor and enforce policies surrounding the enablement of your SOA initiative. After assessing your existing IT governance model, you decide that it is not appropriate for your existing organization governance model to be updated to address the needs of your SOA initiative. Therefore, you decide on which one of the following course of actions?

A. Define like-for-like SOA organization governance structures to match your IT organization governance structures, which address only SOA concerns.

B. Define new SOA organization governance structures that at a minimum must include a SOA Center of Excellence, SOA Architecture Authority, and a Service Advisory Council.

C. Define SOA organization governance structures that address the needs of your SOA initiative.The number and names of these structures are less important than the roles and responsibilities.

D. Define new SOA organization governance structures that at a minimum must include a SOA Steering Board, a SOA Center of Excellence, and a service librarian.

Correct Answer: C
