QUESTION 1

What would prevent a user from creating an applicant record in a particular program, plan, or subplan?

- A. Last Admit Term for the program, plan, or subplan being less than or equal to Admit Term for the applicant record
- B. Last Admit Term for the program, plan, or subplan being greater than Admit Term for the applicant record
- C. The program, plan, or subplan being unavailable for the selected Admit Type
- D. Last Admit Term not populated for the program, plan, or subplan
- E. The program, plan, or subplan being unavailable for the selected Application Center

Correct Answer: D

QUESTION 2

Your client has chosen to use only the Course Credit - Manual transfer credit component rather than setting up transfer credit rules.

What impact will this have for students who want to enter new transfer credit information by using the Evaluate my Transfer Credit functionality in Self Service?

- A. Students will be able to enter transfer credit by using Evaluate my Transfer Credit, but only during the add/drop enrollment period.
- B. Students will be able to enter transfer credit by using Evaluate my Transfer Credit, but only for one defined external organization.
- C. Students will be unable to enter transfer credit by using Evaluate my Transfer Credit in Self Service because transfer credit rules are required.
- D. Students will be able to use Evaluate my Transfer Credit without restriction.
- E. Students will be able to enter transfer credit by using Evaluate my Transfer Credit, but only for specific courses that the client defines.

Correct Answer: B

QUESTION 3

Your client wants to set up the system such that students given an Academic Standing status of Dismissal are inactivated in their program. Which statement is true about using a status of Dismissal in Academic Standing rules?

- A. A Dismissal status can be built to automatically inactivate a student's program/plan stack.
- B. Students given a dismissed standing will still need a new inactivation row on the program/plan stack to become inactive.
- C. A status of Dismissal can be built to automatically place a negative service indicator on the student.

- D. A Dismissal status can be built to deselect the Eligible to Enroll check box on a student's Term Activation screen.
- E. A Dismissal status can be built to automatically assign a student attribute to a student's program/plan stack.

Correct Answer: B

QUESTION 4

Which five structural elements can be used to identify and assign recruiters to prospects?

- A. Region
- B. Career
- C. Program
- D. EMPLID
- E. Plan
- F. Recruitment Categories

Correct Answer: ABCEF

QUESTION 5

Your client is attempting to add a comment to a student's record by using the 3Cs but is only able to see existing comments. The client has been assigned to the appropriate 3C group.

What step should you perform to troubleshoot this problem?

- A. Create a new role for access to the comment category.
- B. Ensure that the 3C group's Update/Inquiry check boxes have been selected at row-level security
- C. Create a new permission list for access to the comment category.
- D. Create a new Update/Inquiry group.
- E. Assign the comment category to an Administrative Function of GEN.

Correct Answer: C
