QUESTION 1

Which statement best describes the pricing metric for Oracle VM configurations?

- A. Oracle VM Server support contract is purchased for each server. Oracle VM Manager is included at no charge.
- B. Oracle VM Server license and support contract is purchased for each server. Oracle VM Manager is included at no charge.
- C. Oracle VM Server license and support contract is purchased for each server. Oracle VM Manager license and support contract is purchased for each server.
- D. Oracle VM Server license and support contract is purchased for each server. Oracle VM Manager license and support contract is purchased for one server.
- E. Oracle VM Server support contract is purchased for each server. Oracle VM Manager support is purchased for one server.

Correct Answer: B

QUESTION 2

Which two are characteristics of block I/O in a fully hardware virtualized configuration?

- A. The virtual machine I/O path only uses the block device driver from dom0.
- B. The virtual machine relies on emulation of the hardware in dom0 for block I/O. the guest
- C. The virtual machine I/O path includes the native block device drivers from operatingsystem.
- D. The virtual machine does not need a block device driver.
- E. The virtual machine must provide emulation of the hardware through its own IOEMU drivers.

Correct Answer: BC

QUESTION 3

When crating a repository on an iSCSI LUN, how should the LUN be formatted?

- A. The LUN should be formatted with ext3 from every participating node in the cluster.
- B. The LUN should be formatted with ext3 from a single node in the cluster.
- C. The LUN should be formatted with OCFS2 from every participating node in the cluster.
- D. The LUN should be partitioned, and then formatted with OCFS2 from every participating node in the cluster.

E. The LUN should be formatted with OCFS2 from a single node in the cluster.

Correct Answer: E

QUESTION 4

When setting up an iSCSI repository, what three steps must be completed before running the repos.py commands?

- A. The iSCSI LUN must be formatted with the OCFS2 file system.
- B. The iscsi-adm service must be installed and running.
- C. The iSCSI daemon must be installed and running.
- D. Multipathing must be configured and the multipath daemon must be running.
- E. The iSCSI LUNs must be mapped to local devices.

Correct Answer: ABC

QUESTION 5

A number of high priority virtual machines require significant file system access and you are trying to decide what type of memory impact on dom0 they will have. Which two are best practices you should consider for memory use in dom0?

- A. You should always run a find command on dom0 to fill the file system buffer cache for best performance.
- B. You should not run a find command on dom0 as it will use up Dom0 memory and potentially cause double buffering with virtual machines.
- C. When increasing load with additional virtual machines, you should always add more memory to dom0.
- D. When increasing load with additional virtual machines, you generally won't add more memory to dom0.

Correct Answer: AC
