QUESTION 1

A restore must be performed. An administrator is attempting to view the valid images for a client, but the following error occurs: WARNING: Server does not contain any valid images. Which two may be configured incorrectly? (Select two.)

- A. schedule type for restores
- B. destination client for restores
- C. server to use for backups and restores
- D. media server for backups and restores
- E. policy types for restore

Correct Answer: CE

QUESTION 2

A Windows 2008 R2 64-bit client backup job hung. The Symantec NetBackup administrator cancelled the job in the Administration Console and restarted the Symantec NetBackup Client service on the client. The administrator initiated another backup of the client and it also hung. Which Symantec NetBackup client process should be terminated to allow new backups to occur?

- A. bpcd
- B. bpbkar
- C. vnetd
- D. bpbkar32
- E. bpbkar64

Correct Answer: D

QUESTION 3

Which two factors must be considered when estimating the space required for the image catalog? (Select two.)

- A. number of policies
- B. number of files protected
- C. average file size
- D. retention period
- E. file system size

Correct Answer: BD

QUESTION 4

Auto Image Replication is being used to replicate New York backups to London. The New York backups have completed. What is the next step?

- A. image duplicated to London using a storage lifecycle policy to a Disk Staging Storage Unit
- B. image duplicated to London using a Disk Staging Storage Unit
- C. image duplicated to London using a storage lifecycle policy to a media server deduplication pool
- D. image duplicated to London using Symantec NetBackup Vault to tape

Correct Answer: C

QUESTION 5

Four jobs enter the Symantec NetBackup 7.5 job queue simultaneously. All jobs require the same resources and there are resources available to run only one job at a time. All master server Host Properties are set to default values, as are the attributes of the policies associated with the jobs. Of the four jobs, which job will run last?

- A. Backup job
- B. Restore job
- C. Import job
- D. Duplication job

Correct Answer: A
