QUESTION 1

In order to allow users to accept or decline policies, which option can be set during the creation of the policy?

A. Allow User Accept/Decline

B. Allow User Response

C. Allow User Interaction

D. Allow Users to Interface

Correct Answer: B

QUESTION 2

A company expanded the Symantec NetBackup 7.5 environment by adding a new media server.

What is the fastest way to update several hundred Symantec NetBackup clients with the new media server information?

A. run the update_all_clients script

B. run the add_media_server_on_clients script

C. run the install_bp script

D. run the install_client_files script

Correct Answer: B

QUESTION 3

A backup administrator needs to perform file system restore operations for two important client systems, client1 and client2. Dedicated resources are available for restore jobs but only one restore job may run at a time. When submitted, the restore jobs will be queued until a restore job that is already running is completed. The restore job for client1 must be performed first and the restore job for client2 must run before any other restore jobs that may be added to the job queue.

In the Backup, Archive, and Restore (BAR) GUI, which job priority values would allow for the client1 restore to run first, followed by the client2 restore, and finally any other restore jobs that may be submitted?

A. client1: 84000; client2: 85000

B. client1: 85000; client2: 84000

C. client1: 91000; client2: 92000

D. client1: 92000; client2: 91000

Correct Answer: D

QUESTION 4

Which step is recommended before scheduling any dashboard job?

A. back up the reporting database

B. run the Scheduled Reporting Database Purge job

C. run the Scheduled Reporting Database Synchronization job

D. preview the dashboard

Correct Answer: C

QUESTION 5

Where are assets stored?

A. Assets.XML

B. Production database

C. RMS database

D. ADAM

Correct Answer: D
