QUESTION 1

The Delta Hardware Inventory policy is configured to run daily at 18:00. The Delta Software Inventory policy is configured to run weekly on Mondays at 18:00. Both policies are enabled for all managed computers. What will happen on Mondays at 18:00?

- A. Both policies will run simultaneously, only reporting their uniquely different information.
- B. Both policies will run simultaneously, reporting all their overlapping information.
- C. The weekly task will run on Monday and the daily task will be postponed until its next scheduled run on Tuesday.
- D. One policy will run and the second policy will start once the first completes.

Correct Answer: D

QUESTION 2

Which two inventory data classes are collected during the Software Discovery scan of an Inventory Solution policy? (Select two.)

- A. AddRemoveProgram
- B. Installed File Detail
- C. InstalledSoftware
- D. Patch Windows
- E. Audit Results

Correct Answer: AC

QUESTION 3

What are two possible Patch Management Solution 7.1 configuration changes that can be made to reduce the total number of bulletins managed in the solution? (Select two.)

- A. Deselect additional languages that are undesired in the Managed Languages section of the Patch Management core settings.
- B. Edit the PMImport.xml and delete rows that contain unused language and product names found in the file.
- C. Select Microsoft product names from the Resource Inclusions section of the Microsoft settings.
- D. Select unused Microsoft product names in the environment in the Resource Exclusions section of the Microsoft settings.
- E. Select the Disable All Superseded Software Updates setting within the Import Data for Microsoft policy.

Correct Answer: AD

**QUESTION 4**

A company has an environment where only some computers have the Symantec Workspace Virtualization (SWV) agent installed. When the system administrator distributes an MSI application through a Managed Delivery policy to all company computers and installs the application into a virtual layer, what will happen to computers without the SWV Agent?

- A. The application installation will fail.
- B. The SWV agent will automatically be installed; then the application will be installed into a virtual layer.
- C. The application will be installed as nonvirtual, but the application will be moved into a virtual layer after the SWV agent is installed.
- D. The application will be installed as nonvirtual.

Correct Answer: D

QUESTION 5

Which default Standard Inventory policy is enabled to run when Inventory Solution is first installed?

- A. Collect Full Inventory
- B. Collect Hardware Inventory
- C. Collect Custom Inventory
- D. Collect Software Inventory

Correct Answer: C
