- A. AMT
- B. WMI
- C. ICMP
- D. SNMP
- E. ASF

Correct Answer: AE

QUESTION 2

Which items must be specified to minimize duplication of data and minimize processing on the Notification Server when manually adding a software resource to the Software Catalog?

- A. Product Name, Software Product, and Language
- B. Product Name, Version, and Manufacturer
- C. Product Name, Version, and Software Product
- D. Product Name, Version, and Language

Correct Answer: B

QUESTION 3

Which two operating systems can be managed using pc Anywhere? (Select two.)

- A. Linux
- B. iOS
- C. Android
- D. Mac
- E. Unix

Correct Answer: AD

QUESTION 4

A healthcare company has several smaller outlying locations with very limited bandwidth to corporate headquarters. Maintenance of computers in these locations is proving problematic, especially operating system upgrades and deployment. They would like to completely automate the operating system distribution, installation, and configuration for connected PCs in these locations with minimal impact on the WAN. They have selected a Site Server for each location. What must they do to enable re-imaging of managed computers to occur locally in each remote location?

- A. install Task and Package services on the designated site server; enable the Deployment Site server policy, Deployment Plug-in policy, and Automation Folders policy
- B. enable Deployment Site server and Deployment plug-in policies; establish a remote Deployment portal on the site server; configure Package Server image replication
- C. install Package and Deployment site services on the designated site server; enable PXE Configuration policies; enable the Deployment Task Handler policy
- D. enable Deployment PXE service components on the designated site server; create a preboot configuration supporting PXE; enable the Deployment Plug-in policy

Correct Answer: A

QUESTION 5

Which tool can an administrator use to view the results of a Microsoft Vulnerability scan for a specific computer?

- A. Windows Application Log
- B. Resource Manager
- C. Report Builder
- D. Altiris Log Viewer

Correct Answer: B
