QUESTION 1

Two virtual machines are unable to communicate with one another. The virtual machines are in the same distributed portgroup, but reside on different ESXi hosts.

What are two possible causes for the communications issue? (Choose two.)

- A. Basic multicast filtering mode has been disabled on the ESXi hosts.
- B. No physical NICs are assigned as active or standby uplinks in a NIC team.
- C. The standby links are configured on different VLANs, preventing heartbeats from reaching each VM.
- D. The physical NICs assigned as active or standby uplinks reside on different VLANs on the physical switch.

Correct Answer: BD

QUESTION 2

What is the function of NSX Data Security?

- A. Prevents sensitive data in your virtualized environment from being copied.
- B. Prevents sensitive data in your virtualized environment from being modified.
- C. Identifies sensitive data in your virtualized environment based upon regulation security policies.
- D. Identifies sensitive data in your virtualized environment based upon regulation violation reports.

Correct Answer: D

QUESTION 3

What is true when configuring vSphere Distributed Switches (vDS)?

- A. All configurations are done by the vCenter Server. Each ESXi host can be part of multiple vDS.
- B. All configurations are done by the vCenter Server. Each ESXi host can be part of only one vDS.
- C. All configurations are done by the NSX Manager. Each ESXi host can be part of only one vDS.
- D. All configurations are done by the NSX Manager. Each ESXi host can be part of multiple vDS.

Correct Answer: A

QUESTION 4

A network administrator is troubleshooting an issue and needs to observe an injected packet as it passes through the physical and logical network.

Which tool will accomplish this?

- A. Traceflow
- B. NetFlow
- C. Flow Monitoring
- D. Activity Monitoring

Correct Answer: A

QUESTION 5

Which two NSX Data Security roles could be assigned to view configured policies and violation reports? (Choose two.)

- A. Security Administrator
- B. NSX Administrator
- C. Auditor
- D. Enterprise Administrator

Correct Answer: AC
