QUESTION 1

Which three virtual machine file types are contained in a VM home namespace object in a vSAN cluster? (Choose three.)

- A. .vmx
- B. .swap
- C. .log
- D. .memory
- E. .nvram

Correct Answer: ACE

The virtual machine home directory where all virtual machine configuration files are stored, such as .vmx, log files, vmdks, and snapshot delta description files. The VM Home Namespace is where we store all the virtual machine configuration files, such as the .vmx, .log, digest files, memory snapshots, etc.

The .nvram file: this is the file that stores the state of the virtual machine's BIOS. This file is stored in the same directory as the .vmx file.

QUESTION 3

What is the minimum number of components that comprise a 100GB vSAN object with a RAID-5 erasure coding policy assigned to it?

- A. 3
- B. 9

C. 6

D. 4

Correct Answer: D

QUESTION 4

What must be enabled for the vSAN online health feature to function?

A. Proactive Tests Service

B. vRealize Operatons vSAN Status Plugin

C. Customer Experience Improvement Program

D. vSphere Proactive HA

Correct Answer: C

QUESTION 5

Which three of the listed items are required when configuring a vSAN cluster? (Choose three.)

A. Each host in the vSAN cluster has a VMkernel network adapter for vSAN traffic.

B. All hosts contributing storage to the cluster have at least one cache and one capacity device.

C. A valid license for vSAN is applied.

D. RDMA over Converged Ethernet (RoCE) is enabled on the network switches that connect vSAN hosts.

E. Storage controllers are configured as RAID-0 with 100% write cache.

Correct Answer: CDE
