QUESTION 1

Which expression is a valid Webex Teams webhook filter?

A. personEmail=person@example.com+roomId=abc123

B. personEmail=person@example.com-roomId=abc123

C. personEmail=person@example.comandroomId=abc123

D. personEmail=person@example.com,roomId=abc123

Correct Answer: C

You can also use more than one filter in a webhook. To use multiple filters, combine them with the "and" symbol. For example, to create a webhook that only sends notifications when a specific person performs an action in a specific room, such as sending a message or creating a membership, combine the personEmail and roomId filters.
