QUESTION 1

You are adding five new digital stations in a branch office where there is a G450 media Gateway. On which media Module do you look for available ports?

- A. MM71
- B. MM711
- C. MM712
- D. MM714

Correct Answer: C

QUESTION 2

Administrative users are assigned a user profile that specifies both a web profile group and a SAT profile group. This controls the functions a user can perform with SAT and within the system Management Interface (SMI). How does the SAT profile control the functions?

- A. It controls the SAT "action" commands the user can use.
- B. It controls the time of day that the user can do Sat administration.
- C. It controls which SAT screens or categories the user can access.
- D. It controls the type of SAT access (GEDI or terminal emulation) the user can use.

Correct Answer: C

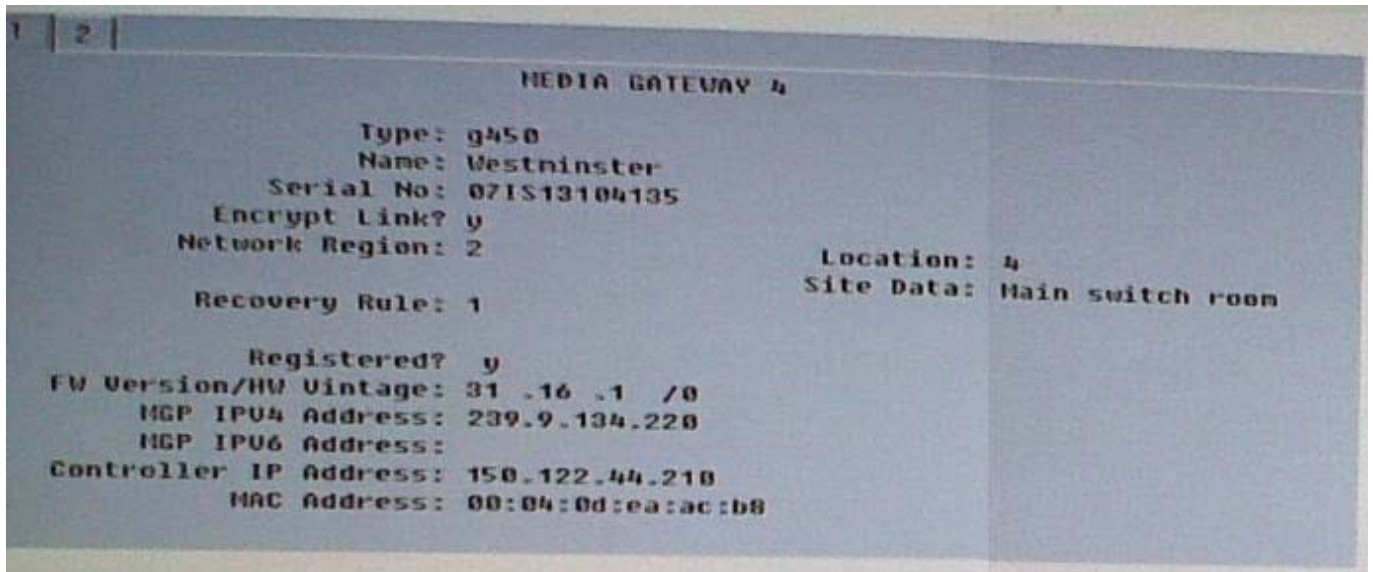

QUESTION 3

System functionality for a user is controlled by accessing one of the 16 class of service (COS) settings. What does the COS settings control?

- A. the applications that a user can access and use
- B. the capabilities or limits of calling privileges
- C. the level of service that the user will get during peak usage time
- D. the optional features that a user can access and use

Correct Answer: D

QUESTION 4

With consideration to the exhibit, in which hardware component do you configure the IP address 150.122 44 210?

- A. In the Media Gateway
- B. In the Server administration port
- C. In a CLAN board or Processor Ethernet port
- D. In the Server services port

Correct Answer: D

QUESTION 5

There are two GUI-based access tools available: Avaya site administration (ASA) and system management interface (SMI). Which statement correctly differentiates between ASA and SMI?

- A. Both SMI and ASA can perform the same administration tasks but ASA is being replaced by SMI.
- B. Both SMI and ASA can perform the same administration tasks but SMI is for technicians and ASA is for customers.
- C. SMI provides access to less frequent administration, installation and upgrade functions, while ASA provides access to day-to-day administration functions.
- D. Old hardware and software (Pre 75.x) is administered using SMI, while current hardware and software (5.x and later) is administered using ASA.

Correct Answer: C
