QUESTION 1

Which of the following statements holds true in terms of virtual machines?

A. Hardware-level virtualization takes place in VMs

B. OS-level virtualization takes place in VMs

C. All VMs share the host OS

D. VMs are light weight than containers

Correct Answer: A

QUESTION 2

Which of the following is the primary international body for fostering cooperative standards for telecommunications equipment and systems?

A. ICANN

B. IEEE

C. NIST

D. CCITT

Correct Answer: D

CCITT is the primary international body for fostering cooperative standards for telecommunications equipment and systems. It is now known as the ITU-T (for Telecommunication Standardization Sector of the International Telecommunications Union). The ITU-T mission is to ensure the efficient and timely production of standards covering all fields of telecommunications on a worldwide basis, as well as defining tariff and accounting principles for international telecommunication services. Answer option A is incorrect. Internet Corporation for Assigned Names and Numbers (ICANN) is a non-profit organization that oversees the allocation of IP addresses, management of the DNS infrastructure, protocol parameter assignment, and root server system management. Answer option B is incorrect. The Institute of Electrical and Electronic Engineers (IEEE) is a society of technical professionals. It promotes the development and application of electro-technology and allied sciences. IEEE develops communications and network standards, among other activities. The organization publishes number of journals, has many local chapters, and societies in specialized areas. Answer option C is incorrect. The National Institute of Standards and Technology (NIST), known between 1901 and 1988 as the National Bureau of Standards (NBS), is a measurement standards laboratory which is a non-regulatory agency of the United States Department of Commerce. The institute\\'s official mission is as follows: To promote U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve quality of life. NIST had an operating budget for fiscal year 2007 (October 1, 2006-September 30, 2007) of about $843.3 million. NIST\\'s 2009 budget was $992 million, but it also received $610 million as part of the American Recovery and Reinvestment Act. NIST employs about 2,900 scientists, engineers, technicians, and support and administrative personnel. About 1,800 NIST associates (guest researchers and engineers from American companies and foreign nations) complement the staff. In addition, NIST partners with 1,400 manufacturing specialists and staff at nearly 350 affiliated centers around the country.

QUESTION 3

Which of the following representatives in the incident response process are included in the incident response team? Each correct answer represents a complete solution. Choose all that apply.

A. Information security representative

B. Legal representative

C. Technical representative

D. Lead investigator

E. Human resources

F. Sales representative

Correct Answer: ABCDE

Incident response is a process that detects a problem, determines the cause of an issue, minimizes the damages, resolves the problem, and documents each step of process for future reference. To perform all these roles, an incident response team is needed. The incident response team includes the following representatives who are involved in the incident response process: Lead investigator: The lead investigator is the manager of an incident response team. He is always involved in the creation of an incident response plan. The duties of a lead investigator are as follows: Keep the management updated. Ensure that the incident response moves smoothly and efficiently. Interview and interrogate the suspects and witnesses. Information security representative: The information security representative is a member of the incident response team who alerts the team about possible security safeguards that can impact their ability to respond to an incident. Legal representative: The legal representative is a member of the incident response team who ensures that the process follows all the laws during the response to an incident. Technical representative: Technical representative is a representative of the incident response team. More than one technician can be deployed to an incident. The duties of a technical representative are as follows: Perform forensic backups of the systems that are involved in an incident. Provide more information about the configuration of the network or system. Human resources: Human resources personnel ensure that the policies of the organization are enforced during the incident response process. They suspend access to a suspect if it is needed. Human resources personnel are closely related with the legal representatives and cover up the organization\\\'s legal responsibility.

QUESTION 4

Match the following NIST security life cycle components with their activities:
A. 1-iv, 2- iii,3-v,4-i

B. 1-ii,2-i,3-v,4-iv

C. 1-i,2-v,3-iii,4-ii

D. 1-iii,2-iv,3-v,4-i

Correct Answer: A

QUESTION 5

Which of the following is a type of VPN that involves a single VPN gateway?

A. Remote-access VPN

B. Extranet-based VPN

C. PPTP VPN

D. Intranet-based VPN

Correct Answer: B
