Neptuno, Planta Baja, Ave. Ricardo J. Alfaro, Tumba Muerto, n/a Panama How will you determine if this is Real Anti-Virus or Fake Anti-Virus website?

WHAT IS SYSTEM SECURITY?

System Security is your comprehensive, all-in-one security solution guarding your system against spyware intrusions, annoying adware, identity theft, and all kinds of malware brooding on the net today. Combining advanced removal capabilities with state-of-the-art monitoring and protection modules, System Security is the only security software you need for your home PC. Equally trusted by companies and end users, System Security is your answer to today's security issues.

HOW SYSTEM SECURITY CAN HELP YOU?

With System Security you have your system cleaned from possible malware infections, protected against current intrusions and robustly secured against future security alerts. Combining outstanding cleaning capabilities with an extensive, constantly expanding database of adware and malware types and a sophisticated, highly intelligent detection module, System Security has everything to become your comprehensive home use security solution in the modern world.

System Security's technology guards you against known, documented dangers and emerging, previously unknown types. Its real-time monitor detects and wards off malware attacks and hacking attempts while the removal module uses the huge spyware database to clean your system from any kind of infection.

IS SPYWARE REALLY DANGEROUS?

Spyware is today's most talked about security issue taking many forms from relatively 'harmless' spam scripts which flood your computer with ad popups and unsolicited emails to serious virus-like programs which steal your private information like passwords and credit card details.

A. Look at the website design, if it looks professional then it is a Real Anti-Virus website

B. Connect to the site using SSL, if you are successful then the website is genuine

C. Search using the URL and Anti-Virus product name into Google and lookout for suspicious warnings against this site

D. Download and install Anti-Virus software from this suspicious looking site, your Windows 7 will prompt you and stop the installation if the downloaded file is a malware

E. Download and install Anti-Virus software from this suspicious looking site, your Windows 7 will prompt you and stop the installation if the downloaded file is a malware

Correct Answer: C
