- ⚙️ **365 Days** Free Update
- ⚙️ **800,000+** Satisfied Customers

**QUESTION 1**

Based on the information shown in the exhibit, what type of handover is performed when the UE moves from eNodeB2 to eNodeB4?

- A. X2-based handover without SGW relocation
- B. X2-based handover with SGW relocation
- C. X2-based handover with MME relocation
- D. S1-based handover with SGW relocation
- E. S1-based handover with MME relocation

Correct Answer: B

**QUESTION 2**

On Alcatel-Lucent 7750 PGW, which of the following statements is FALSE regarding the debugging of a given IMSI?

- A. The output may be filtered per bearer.
- B. The APN value must be specified in the debug command.
- C. A log must be created to view the debug output.
- D. The output may be filtered per APN and per reference point.
- E. None of the above statements are false.

Correct Answer: D

---

### QUESTION 3

Which of the following statements is FALSE regarding the Gx interface?

- A. It is a Diameter-based interface between the PCRF and the PCEF.
- B. The PCEF can act as a client or as a server for the Diameter connection depending on which application is running over the Gx interface.
- C. The PCEF receives the QoS information for a bearer from the PCRF over the Gx interface.
- D. It runs a vendor specific application identified by an application ID value of 16777238.
- E. It is never used to transport user data packets.

Correct Answer: B

---

### QUESTION 4

Which of the following statements is FALSE regarding the PGW?

- A. The PGW terminates the IP sessions from a UE.
- B. The PGW enforces PCC rules and QoS policies.
- C. The PGW may provide gating control for user traffic.
- D. A UE may be served by only one PGW.
- E. A UE may receive more than one IP address from the PGW.

Correct Answer: D

---

### QUESTION 5

In a 3G network, which of the following statements most accurately describes the user data plane between a UE and the GGSN when a direct tunnel is not used?

- A. A Radio Access Bearer between the UE and the NodeB, a GTP tunnel between the NodeB and the SGSN, and

another GTP tunnel between the SGSN and the GGSN.

B. A Radio Access Bearer between the UE and the SGSN and a GTP tunnel between the SGSN and the GGSN.

C. A GTP tunnel between the UE and the GGSN.

D. A Radio Access Bearer between the UE and the RNC, a GTP tunnel between the RNC and the SGSN, and another GTP tunnel between the SGSN and the GGSN.

E. None of the above answers are correct.

Correct Answer: B
