QUESTION 1

What task is NOT part of VSD policy evaluation for a newly-instantiated virtual machine?

- A. Checking metadata.
- B. Creating a virtual port.
- C. Building a forwarding table
- D. Assigning an IP address.

Correct Answer: C

QUESTION 2

Which statement is TRUE when comparing Virtual Machines and Containers?

- A. Virtual Machines are faster to boot.
- B. Containers do not need a CMS.
- C. All Virtual Machines on the same hypervisor must run the same guest OS.
- D. All Containers on the same host use the same OS kernel.

Correct Answer: D

QUESTION 3

What statement is TRUE regarding ingress security policies?

- A. An ingress security policy controls the traffic flowing into the virtual machine.
- B. By default, all traffic is dropped at ingress.
- C. It is executed right after the forwarding policy.
- D. It is executed right after the floating IP NAT.

Correct Answer: C

QUESTION 4

Which of the following interfaces does NOT belong to the underlay network?

- A. Interface on VSD
- B. "Control" interface on VSC
- C. Openflow interface on VSC
- D. Hypervisor interfaces carrying VXLAN traffic.

Correct Answer: B

QUESTION 5

What statement is FALSE regarding the forwarding policies used in VCS for traffic redirection (also known as service chaining)?

- A. Forwarding policies can be applied to either ingress or egress traffic.
- B. Redirection targets should be created in advance and associated with vPorts.
- C. Redirection targets cannot be associated with host vPorts (physical appliances).
- D. A forwarding policy can be created in an active domain or be instantiated from a template.

Correct Answer: D
