**QUESTION 4**

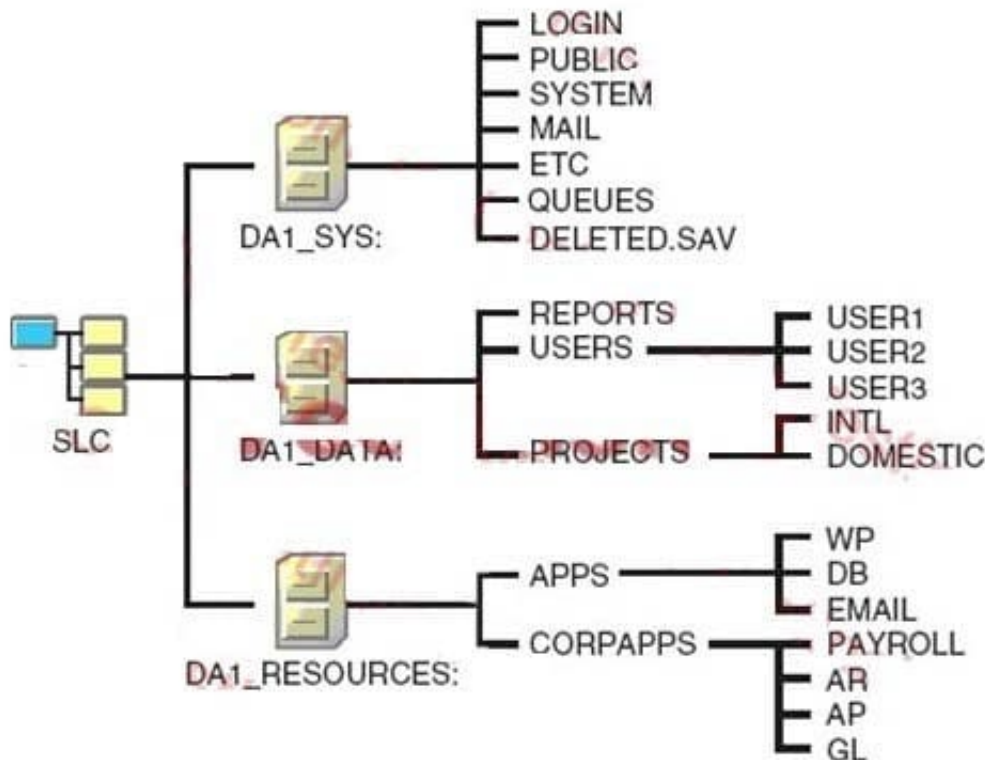

You're designing your organization's eDirectory tree. You have decided to name your tree ACME\_CORP- TREE. You've created a Country object below the tree root and named it US. Within C=US, you've created four Organization objects for each of your organization's functional divisions. To ease administration, you've decided to place your Admin user object directly below the tree root. Will this design work?

- A. Yes, all eDirectory rules have been observed.
- B. No, you can't use an underscore in the tree name.
- C. No, User objects can't reside directly below the tree root .
- D. No, Country objects can't reside directly below the tree root.
- E. No, Country objects must use the full name of the country they represent, not its abbreviation.
- F. No, if you use Country objects, the next level down the tree must represent geographic locations, not organizational divisions.

Correct Answer: C
