QUESTION 1

The eDirectory _____ defines the types of objects that can be created in your tree and what attributes they will have.

Correct Answer: schema

QUESTION 2

You're configuring location-based printing with iPrint on your OES NetWare server. You've scanned floor plans of your organization's office suite into JPG files. You now need to upload these images to your server. Which directory should you copy them to?

- A. Sys:\System\Ndfs\lppdocs\Images\Maps
- B. Sys:\System\iPrint\lppdocs\Images\Maps
- C. Sys:\Apache2\Htdocs\iPrint\Images\Maps
- D. Sys:\Apache2\Htdocs\lppdocs\Images\Maps

Correct Answer: D

QUESTION 3

You are planning the network file system for your OES NetWare server. You want to create two NSS volumes on your server:

SYS for operating system files

DATA for user files Your server has two 100 GB SCSI hard disk drives. You want the SYS volume to be 8 GB in size and DATA to be about 190 GB in size.

Will this design work?

- A. Yes, all NSS requirements have been met.
- B. No, NSS doesn't support SCSI hard disk drives.
- C. No, the SYS volume must be at least 10 GB in size.
- D. No, you can't create multiple volumes on the same server.
- E. No, you can't span an NSS volume across multiple hard disk drives.

Correct Answer: A

QUESTION 4

You recently purchased and installed a SCSI RAID5 disk array in your OES NetWare server to store large user files. You need to configure your system files to automatically load the drivers on boot. Which file should you edit to do this?

- A. RAID.NCF
- B. SERVER.EXE
- C. CONFIG.SYS
- D. STARTUP.NCF
- E. STARTUP.CFG
- F. AUTOEXEC.BAT

Correct Answer: D

QUESTION 5

User BDevries has access to his manager's confidential files located on the HR volume on the DA2 NetWare server. Upon inspection, you discover that his user object has all file system rights to the root directory of the HR volume. You determine that BDevries has the Supervisor effective right to the DA2 server object in the eDirectory tree. What should you check to identify where these rights are coming from? (Choose 2.)

- A. Groups BDevries is a member of.
- B. List objects associated with BDevries.
- C. Alias objects associated with BDevries.
- D. Template objects associated with BDevries.
- E. Organizational roles BDevries is an occupant of.
- F. NDSPredicateStats objects associated with BDevries.

Correct Answer: AE
