QUESTION 2

In what order must the step for protecting a workload for VMware on AWS DRaaS be completed?

- A. Add a virtual machine to a protection group, then replicate the virtual machine, then add the virtual machine to a recovery plan.
- B. Replicate a virtual machine, then add the virtual machine to a recovery plan, then add the virtual machine to a protection group.
- C. Replicate a virtual machine, then add the virtual machine to a protection group, then add the virtual machine to a recovery plan.
- D. Add a virtual machine to the recovery plan, then add the virtual machine to a protection group, then replicate the virtual machine.

Correct Answer: C

QUESTION 3

After VMware Site Recovery is activated on VMware Cloud on AWS, which two steps are required to use VMware Site Recovery Service? (Choose two.)

- A. Install the Site Recovery Manager Server instance at the on-premises site.
- B. Install a vSphere Replication appliance at the on-premises site.

- C. Install the Site Recovery Manager Server instance on the VMware Cloud on AWS SDDC.
- D. Install a vSphere Replication appliance on the VMware Cloud on AWS SDDC.
- E. Activate VMware Site Recovery at the on-premises site.

Correct Answer: BE

Reference: https://docs.vmware.com/en/VMware-Site-Recovery/services/com.vmware.srmaas.install_config.doc/GUID-B37D5556-2EAF-417C-8B91-4516C9DB7530.html

QUESTION 4

During which two points in a customer engagement is a Hybrid Cloud Readiness Assessment appropriate? (Choose two.)

- A. During SDDC deployment
- B. After SDDC deployment
- C. Before SDDC deployment
- D. During the validation phase of the SDDC deployment
- E. Scoping

Correct Answer: BE

QUESTION 5

A site pairing was manually broken.

Which step must be used to re-establish the pairing?

- A. Create a new mapping
- B. Configure a new site pair
- C. Reconfigure the site pair
- D. Refresh the site pair

Correct Answer: B

You cannot use the Reconfigure Site Pair action to add a missing pairing or a pairing that was manually broken with Break Site Pair. If your site pair is missing a pairing, you must use New Site Pair to configure it.
