## QUESTION 5

An administrator wants to migrate a System Center Configuration Manager (SCCM) collection into a managed stage in Workspace One UEM. Workspace ONE AirLift does not display the collection as mapped.

What is most likely the issue?

A. The collection is mapped to the wrong API.

B. The collection mapping is removed or the migration is completed and the ConfigMgr collection is no longer used.

C. The collection mapping is busy or the migration is failed.

D. The collection has at least one Windows 10 device.

Correct Answer: B
