### QUESTION 1

Refer to the exhibit:

The screenshot shows a filter panel with the following sections:

- FILTERS** (with a 'Clear' button and a back arrow)
- Response (1)**: A list with one item 'Matched' and a count of 6.
- Device (2)**: A search bar with 'Search' placeholder, and two items: 'Resort' (count 3) and 'Summit' (count 3).
- description**: A collapsed section with a '+' icon.
- directory (3)**: A collapsed section with a '+' icon.
- gid (3)**: A collapsed section with a '+' icon.
- gid\_signed (3)**: A collapsed section with a '+' icon.
- shell (1)**: A collapsed section with a '+' icon.
- type (2)**: A search bar with 'Search' placeholder, and two items: 'special' (count 6) and 'local' (count 8).
- uid (3)**: A collapsed section with a '+' icon.
- uid\_signed (3)**: A collapsed section with a '+' icon.
- username (3)**: A collapsed section with a '+' icon.
- uuid (3)**: A collapsed section with a '+' icon.

Which two logic statements correctly explain filtering within the UI? (Choose two.)

A. Filtering between fields is a logical OR

- B. Filtering within the same field is a logical AND C. Filtering between fields is a logical AND
- D. Filtering between fields is a logical XOR
- E. Filtering within the same field is a logical OR

Correct Answer: AD

### QUESTION 2

An analyst wants to block an application's specific behavior but does not want to kill the process entirely as it is heavily used on workstations. The analyst needs to use a Blocking and Isolation Action to ensure that the process is kept alive while blocking further unwanted activity.

Which Blocking and Isolation Action should the analyst use to accomplish this goal?

- A. Log Operation
- B. Deny Operation
- C. Terminate Process
- D. Block Process

Correct Answer: B

### QUESTION 3

An Enterprise EDR administrator sees the process in the graphic on the Investigate page but does not see an alert for this process:

How can the administrator generate an alert for future hits against this watchlist?

- A. select the watchlist on the watchlists page, select the Scheduled Task Created report, and use Take Action to select Alert on hit for the report.
- B. Select the watchlist on the watchlists page, select the Scheduled Task Created report, and use Take Action to toggle Alert on hit to On.
- C. Select the watchlist on the watchlists page and click on Alerts: Off to toggle the alerts to On.

D. Select the watchlist on the watchlists page, use Take Action to select Edit, and select Alert on hit.

Correct Answer: D

---

#### QUESTION 4

How can an analyst disregard alerts on multiple devices with the least amount of administrative effort?

- A. Select the "Dismiss on all devices" option.
- B. Make a note in the Notes/Tags option.
- C. Search by hash and dismiss.
- D. Turn off the Group Alerts option.

Correct Answer: D
